## Are You Plugged In To Your Local Commodity Organization?

Winter is the time for farmer meetings, and many interesting events and annual meetings will be happening across east central Ontario this season. Local commodity groups are a great source of information and a fantastic way to meet fellow farmers.

Check out our list of [regional commodity organizations](#) [1] to search out and find the groups you may want to connect with.

And consider signing up for the [Ontario Soil and Crop Improvement Association's News and Views](#) [2] to keep up-to-date on events and happenings in our region and across the province.
