Hey Farmers, Have Your Say!

The University of Guelph is conducting a study as part of research being undertaken by [Guelph Agricultural and Food Systems](#) and [Guelph Agricultural and Food Systems](#) (OMAFRA).

The study aims to better understand the challenges that farms and food businesses face in managing food safety and traceability. The results will help OMAFRA to improve the support services they provide to farms and food businesses in the province.

The results of the survey, which will take about 30 minutes to complete, will help design and build food safety programs to support farm businesses across the province. [Click here](#) [2] to take the survey.

If you have any questions or concerns about the survey please contact study coordinator, [Professor Spencer Henson](#) [3] | (519) 814-4120 x53134.
